

## **Year 7 Catch-Up Statement 2014/15**

Additional funding comes into the academy to support those students who are below level 4 in English and Mathematics on entry in year 7. The amount for the year 2013-2014 was £500 per student and it is expected to be the same for the academic year 2014-2015.

In 2013-2014 we had 21 eligible students and so received £10,500.

In 2014-2015 we have 22 eligible students and anticipate receiving £11,000.

We use this extra funding to help fund a wide range of literacy interventions such as:

- Specialist assessment screening to identify Dyslexia and Dyscalculia.
- Literacy skills intervention in small groups.
- Numeracy skills intervention in small groups.
- Smaller group sizes in English and maths for those students who need additional support to accelerate their progress.
- Identification and purchase of reading scheme resources such as Accelerated Reader.
- Provision of additional educational resources and equipment.
- Supporting Literacy and Numeracy across the curriculum.
